ABOUT THE ARTIST

Wendy Buiter is a Dutch contemporary artist known for her expressive portraits of women with striking eyes, sculptural features and an unmistakable sense of presence.

Her work explores beauty, identity, femininity and the tension between control and freedom. She returns to the face again and again, searching for an ideal she knows cannot truly exist. For Wendy, it is often the unexpected line, expression or imperfection that makes a portrait beautiful and alive.

Modern Icons transforms a selection of her original paintings into coloring pages, inviting you to enter her visual world and make each portrait your own.

“I keep trying to paint the perfect face. It never quite exists—and that is precisely where beauty begins.”

— Wendy Buiter
